WHAT'S NEW FOR TEENS

That is why Murad, one of the first skincare brands created by a doctor, has developed Clean Scene, a fresh and fun approach to effective skincare. These deliciously scented cleansers, lotions, and treatments are rich in antioxidants, thanks to the brand's star ingredient, a powerful little fruit called the Yumberry. These healthy formulas gently treat and protect young skin, leaving you with a clean, glowing face. Be the queen of the Clean Scene and get skin that's balanced and beautiful without all the drama.

SPORTS MASSAGE AT TALLMAN MEDICAL SPA Back to School often means Back to Sports

Sports massage can be an integral part of any sports regimen, whether you are a beginner just getting back into the swing of a new workout plan, or an athlete looking to get that extra edge on the competitor. This specific modality of massage can be customized to fit your workout plan with Russian petrissage strokes and passive stretching for each specific muscle group used in your training program. Injury massage can increase your range of motion and blood flow by eliminating restrictive scar tissue that can cause ischemia (poor blood flow) and injuries!

A regular routine of massage therapy is effective in combating minor injuries and muscle soreness. So stop in for you first sports massage and get a 75 minute session for only \$65. That's an extra 15 minutes spent on the muscle group of your choice to extend the overall life of your sporting career!
