Where medical technology meets luxury...

New at Tallman Medical Spa  
Sculpt, Tighten and Firm!  
with three new systems from

**SculpSure Non-Invasive Body Contouring:**

We're proud to be the first in our region to offer SculpSure, the first FDA-cleared laser treatment for the reduction of stubborn fat in areas such as the abdomen and love handles. The 25 minute procedure destroys up to 24 percent of treated fat cells with no surgery, downtime, or pain.

**Pellevé RF Wrinkle Reduction:**

The Pellevé System delivers constant, gradual radio frequency energy deeply into the skin, causing heat to build up where the skin and fat layer meet. The increasing heat modifies the collagen bundles deep in the skin, causing contraction and stimulating the growth of new collagen.

**PelleFirm RF Body Treatment:**

PelleFirm provides a non-invasive, pain free RF treatment for the body, resulting in smoother skin and temporary improvement in the appearance of cellulite. PelleFirm treatments leave you with smoother skin and an overall healthier appearance from head to toe.

# INTRODUCING SculpSure® THE NEW SHAPE OF BODY CONTOURING

Tallman Medical Spa is the first in our region to offer SculpSure Body Contouring. We believe that SculpSure offers significant advantages compared to other fat reduction systems, and we are pleased that our patients will be the first to benefit from this new technology!

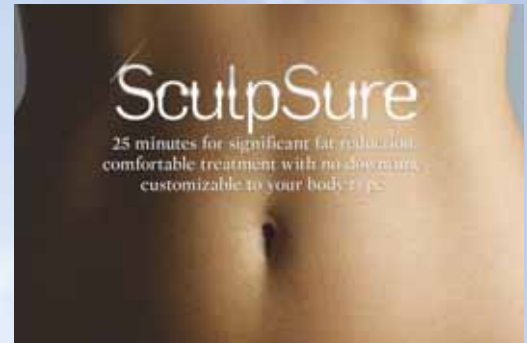

SculpSure is a breakthrough in light-based body contouring designed to reduce stubborn fat in problem areas such as the abdomen and love handles, helping you achieve a slimmer and natural looking appearance without surgery or downtime.

Even with diet and exercise, most people have stubborn pockets of fat that seem impossible to lose. SculpSure's body contouring technology is able to target and destroy these fat cells in just 25 minutes without affecting the skin's surface.

Over time, these damaged fat cells are naturally absorbed and removed from the body, with results seen as quickly as six weeks, and optimal results typically seen at 12 weeks. There is no recovery time following treatment, so you can resume your daily activities immediately.

## What Sets SculpSure Apart?

SculpSure is the world's first FDA-cleared laser treatment for non-invasive lipolysis of the flanks and abdomen. It's a state-of-the-art, controlled light-based technology, ideal for patients looking to get rid of stubborn fat.

- **Non-invasive 25 minute treatment**
- **Up to 24% reduction in stubborn fat**
- **Comfortable and well tolerated**
- **Flat, non-suction applicator design for consistent results**
- **Over 90% patient satisfaction rate**

## INTRODUCING PELLEVÉ — RF Wrinkle Reduction

Stimulate Collagen, Tighten skin, Reduce facial wrinkles

**HOW IT WORKS:** Pellev  is an FDA approved system that delivers constant, gradual radio frequency energy deeply into the skin, causing heat to build up where the skin and fat layer meet. The increasing heat modifies the collagen bundles deep in the skin, causing contraction and stimulating the growth of new collagen.

Courtesy of Kati Rezai, MD

Courtesy of Igor Jeremic, MD

### Safe and Effective

- Creates visible improvement in skin's tightness, texture, wrinkles, and cellulite
- 87% of patients showed response to Pellev  treatment over six months with a single procedure

### High Patient Satisfaction

- No downtime or restrictions to sun exposure
- 85% of patients reported overall satisfaction in skin's laxity, smoothness, and brightness
- No pain or discomfort during or after procedure

### Pellev  is indicated for:

- Wrinkles around the eyes, fine to moderate facial wrinkles, neck wrinkles, chest wrinkling, jowl sagging, neck laxity, and overall facial laxity and looseness

# INTRODUCING PELLEFIRM – RF Wrinkle Reduction

Stimulate collagen, Tighten loose skin, Temporarily improve cellulite appearances

**HOW IT WORKS:** PelleFirm is an FDA approved procedure designed to help tighten the skin on the body with potential side benefits of cellulite improvement. This radio frequency device painlessly heats skin tissue to a collagen-changing 45 degrees Celsius. At this temperature the body's typical response is one of collagen tightening and new collagen production. Although the final effects occur over a series of treatments, you'll likely see tighter skin right away while increasing firmness occurs over time.

### Benefits of PelleFirm:

- Help tighten loose skin
- Temporarily improve cellulite appearance
- No pain – No downtime
- Safe FDA approved radio frequency
- No prep – 30 minute treatment time
- Safe for all skins

### PelleFirm treatable areas:

- Abdomen
- Arms
- Buttocks
- Thighs

## INTRODUCING REVITALASH AND REVITABROW

Tallman Medical Spa is pleased to introduce **RevitaLash** and **RevitaBrow**!

Available over-the-counter, both RevitaLash and RevitaBrow work by combining plant extracts and Biopeptin complex to promote fuller, thicker and healthier brows and lashes. Biopeptin complex and natural botanicals work together to protect against breakage and brittleness caused by aging, stress, and various other factors.

Comparable to Latisse, RevitaLash is formulated to be a non-slip gel formula perfect for use on the lash-line. RevitaLash and RevitaBrow are both created with anti-microbials to help protect those with sensitive skin from irritation. RevitaBrow is also formulated for safe use on beards and sideburns which may be thinning or sparse.

Dermatologist Reviewed | Ophthalmologist Reviewed | Clinically Tested | Hypoallergenic | Non-irritating

100% Easy to Use | 98% Improved Lash Appearance | 98% Healthier-Looking Lashes | 98% Stronger Lashes | 95% More Attractive Lashes

## LaVonne's Pick – VitaSkin Targeted Treatments

I am so excited to introduce three new products from Éminence! These targeted treatments take aim at dark spots, acne and the signs of aging with a potent blend of botanicals. Forty-two percent reduction in oil production, 73 percent were satisfied with the anti-wrinkle effect in as little as 5 minutes, also 34 percent reduction in dark spot production. With the **Clear Skin** treatment the antiseptic properties of tea tree oil and salicylic acid fight pimples and bacteria to remove impurities while brightening the skin. Buchu leaf extract shrinks pores and helps to regulate sebum production which will help to prevent future acne flare ups. The **Firm Skin** treatment has a natural retinol alternative to boost collagen production and restores elasticity providing immediate and lasting results that are compounded by the plumping and hydrating power of botanical hyaluronic acid. Last the **Bright Skin** treatment has healing properties of licorice root extract that is paired with punarnava and turmeric to soothe skin while treating the root cause of discoloration and inhibit the formation of dark spots.

## Summer Spa Specials

**JUNE • 15% off the purchase of any ColoreScience** product, our line of high-integrity pure mineral makeup that also protects the skin from the damaging effects of the sun and environment.

**JULY • 15% off of the purchase of any SkinMedica** product in the month of July. An Allergan company, SkinMedica offers a breakthrough line of products scientifically formulated and clinically tested to rejuvenate skin and help rekindle your skin's youthful appearance.

## Women shave an average of 7,718 times in their lifetime! Imagine Never Shaving Again

Summer Underarm and Bikini Special  
\$150 per treatment (a \$75 Savings)

GentleLASE is a laser hair removal technology offering safe, effective and permanent hair reduction. GentleLASE uses advanced, “gentle” laser technology, eliminating the pain and inconvenience of shaving, tweezing, or waxing unwanted hair. Laser treatments – even of large areas such as the legs, back, or chest – take a fraction of the time of other hair removal methods.

This treatment works best on dark-colored hair. It is ineffective on blonde, red or gray hair, and we are unable to laser tan- or dark-colored skin. The average number of treatments needed is between six and eight, with a minimum of four weeks in between treatments.

*Introductory pricing valid through August 31, 2016.*
